

Stationary Compacting Container For High Density Refuse Collection

1. Stationary Garbage Compactor (20 cu. mt on a custom-made trailer frame).

IPWT, the renowned name in solid waste management systems, now offers time and cost-saving, maintenance-free, vehicle-mounted **COMPAK® Stationary Compactors**.

COMPAK® is custom-made so as to snugly fit onto any commercial trailer chassis.

COMPAK® is especially designed to make the task of garbage collection in the city's main streets, easy and effective. These units are 'state of the art' and can be parked at one central collection point. **COMPAK®** units are designed not only to compact garbage but also to safely store high liquid content wastes in a safe controlled environment. It provides economy in garbage compaction resulting in lesser number of trips to landfill, saving on fuel cost. The refuse is loaded directly into the compactor head, which packs the refuse into the container.

Features included in the **COMPAK® Stationary Compactor** are : a packer head with an integrated container ; a heavy-duty trailer ; an independent hydraulic power pack system ; solid state electronic circuitry ; and a large assortment of custom-built accessories for added efficiency. All of these features combine to transfer high volumes of garbage using a independent tractor or truck for pulling the trailer and driving it to the dumping area for being emptied using the unit's tipping mechanism.

COMPAK® machines are custom-made in capacities depending on the gross vehicle weight of the trailer chassis (suggested capacities : 16 cu.m. on 24 GTW single axle trailer ; 20 cu.m. on 30 GTW twin axle trailer)

Maintenance is virtually nil for these rugged machines, and at the time when they need to be serviced, our after sales service is just a phone call away !

APPLICATIONS :

- For collection and hygienic storage of garbage in markets and densely populated localities
- Allows high volumes of garbage storage
- The main central garbage collection and compacting container in the continuous 'relay' system resulting in achievement of large volume of garbage transfer.

ADVANTAGES

- Carries the garbage load of 5 conventional trucks
- CYCON Life-Xtender enables the ram to dwell against the compacted waste longer for superior compaction ratios.
- 'Quick Clean Tank' eliminates troublesome fuild build-up behind the ram
- Odour elimination device available
- Low noise operation.

A SIMPLE WORKING PRINCIPLE

Winner of the prestigious 'National Award for Import Substitution' in 1982 for Garbage Compactor

Dun & Bradstreet Rating : SE2A "High Performance Capability and High Financial Strength"
