

Trailer-mounted Suction Machine For Cleaning Manholes and Open Drains

1

2

1. Mini-size trailer-mounted **SLURPIT®** suction unit (1500 ltrs) ; supplied to Shimoga City Municipal Council in 2000

2. Mini size trailer-mounted **SLURPIT®** suction unit (3000 ltrs.) ; supplied to DUDC, Tumkur in 2012

IPWT, the renowned name in sewer and storm drainage cleaning and maintenance systems, now offers the time and cost-saving, maintenance-free, trailer-mounted, auxiliary engine driven **SLURPIT®** Suction Machine.

SLURPIT® is the product of **IPWT's** in-house development program that lets you use the auxiliary engine for all the cleaning operations.

SLURPIT® is custom-made so as to snugly fit onto special purpose trailer chassis.

SLURPIT® is especially designed to make the task of cleaning and maintaining of manholes and open drains on narrow roads normally unsuitable for large-sized suction machines. Power to the pump is given from the auxiliary engine, creating the vacuum in the tank. The boom is rotated and positioned such that hose remains vertically above the manhole and is dipped inside the sludge to be sucked. The sucked-in sludge can be discharged hydraulically by tipping the tank.

Features included in the **SLURPIT®** Suction Machine are : reliable top-of-the-line hydraulics for tank tipping and boom lift operations ; an epoxy-lined vacuum tank ; a superior quality **BATTIONI** (Italy) or equivalent imported air-cooled vacuum pump / compressor ; a convenient storage compartment for tools and accessories ; a hose carrying arrangement ; and a large assortment of custom-built accessories for added efficiency.

SLURPIT® machines can be custom-made in the following capacities : 1500 ltrs. on single axle trailer chassis ; 3000 ltrs. on twin axle trailer chassis.

SLURPIT® requires only one operator for carrying out complete operation and maintenance with ease.

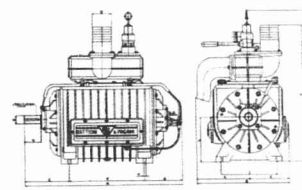

APPLICATIONS :

For cleaning manholes and open drains on narrow roads where cleaning with large-sized suction machines is not possible.

ADVANTAGES

- Cleans blockage from manholes and open drains otherwise inaccessible by large-sized suction machines.
- Can earn immense revenue for the client, thereby offsetting the cost of the machine
- Maintenance is virtually nil for first few years.
- Easy to operate as no special skill is required.
- Very economical.

ITALIAN BATTIONI PUMP : THE HEART OF EVERY CESSTANK / SLURPIT SUCTION MACHINE

Winner of the prestigious "National Award for Import Substitution" in 1982 for Garbage Compactor

Dun & Bradstreet Rating : SE2A "High Performance Capability and High Financial Strength"
