

## Trailer Mounted Sewer Jetting Machine

Conceptual design for Year 2011

TRAILORJET® (3000 Ltr.) Capacity Supplied to Kalol Nagar Seva Sadan in 2008

IPWT, a renowned name in the sewer and storm drainage cleaning and maintenance systems, now offers the time and cost saving, maintenance free, trailer mounted, driven by Tractor's PTO, **TRAILORJET®** Sewer Jetting machine.

**TRAILORJET®** is the product of IPWT's in-house development program that lets you use the Tractor's engine for all the cleaning operation, adding to fuel economy.

**TRAILORJET®** is specially designed to make the task of cleaning and maintaining of sewer lines, easy and effective. The water jets 'blast' their way through any blockages or settled debris within the pipe ensuring thorough cleaning, thereby avoiding emergency blockages and costs thereof.

Features included in the **TRAILORJET®** Sewer Jetting Machine are simplified controls for easy operation; reliable top of the line hydraulics for driving the hose reel; corrosion resistant water tank of customer-specified sizes; convenient storage compartment for tool and accessories (optional); high pressure hand gun for lateral cleaning (optional); and a large assortment of custom built accessories for added efficiency.

**TRAILORJET®** machines are custom-made in following capacities 1500, 2000 and 3000 Ltrs. on Single axle Trailer Chassis and 4000 Ltrs. on twin axle Trailer Chassis. **IPWT** builds quality into all aspects of every **TRAILORJET®** they manufacture, whatever the type, whatever the size.

**TRAILORJET®** requires only one operator for carrying out complete operation and maintenance with ease.

**TRAILORJET®** totally satisfies the underground cleaning needs of municipalities and sewer authorities, industrial plants, military and utility companies ..... all at once.

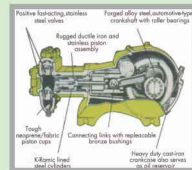

Maintenance is virtually nil for these rugged machines and at the time when they need to be serviced, our after sales service is just a phone call away!

### APPLICATION:

- Clears blockages and settled debris from the most inaccessible points in sewer line and storm drain.
- Elimination of man-entry oriented method of cleaning, thus upgrading dignity of labour
- Can be customised to suit any client's requirement

### ADVANTAGES:

- Clears blockages and settled debris from the most inaccessible points in sewer line and storm drain.
- Can earn immense revenue for the client, thereby offsetting the cost of the machine.
- Maintenance is virtually nil for the first few years.

Winner of the prestigious 'National Award for Import Substitution' in 1982 for Garbage Compactor

Dun & Bradstreet Rating: SE2A "High Performance Capability and High Financial Strength"
