

Light Duty Trolley / LCV Mounted Sewer Jetting Machine

1

2

- 1 Auto Mounted **GASJET**® Jetting Machine supplied to Nagar Nigam Jaipur (RUIDP) in 2009.
3. Trolley Mounted **GASJET**® Jetting Machine supplied to Municipal Corporation of Greater Mumbai (MCGM) in 2001.

"IDEAL FOR A WIDE RANGE OF APPLICATIONS"

IPWT, the renowned name in solid waste management systems, now offers time and cost-saving, maintenance-free, vehicle-mounted **GASJET**®.

IPWT **GASJET**® with triplex pump, up to 300 ft. capacity hose reel, choice of 1/4" to 3/4" hose, easy maneuverability in cramped alleys and by lanes, safe and effortless operation makes this equipment a 'must-have' for all water supply and sewerage department. It can also effectively clean tanks, remove scales, tough grease and dirt from 75mm to 300mm sewer line. The set-up time is practically 'Zero'. The operator only needs to plug in towater supply source and the equipment is ready to perform!

A SIMPLE CLEANING PRINCIPAL

The unit consists of a triplex jetting pump and a hose reel mounted on a trolley with pneumatic wheels. Power to the pump is given from high performance engine, coupled to the pump.

The unit is light weight, maneuverable, provides flow rate of 4 gpm at 3000 psi. The unit is hand carted/Auto Mounted and positioned near the pipe / tank / utility to be cleaned and water source is connected to the pump inlet. The cleaning hose is positioned in the drain / water pipe or tank and the unit is ready for quick and efficient cleaning.

There is a foot pedal (optional) available for controlling the jetting operation for operator convenience and Vibra-pulse® a special utility to provide the extra effort for removing difficult and tough dirt.

The unit is such that only one operator is required for carrying out complete operation and maintenance with ease.

OTHER OPTIONS AVAILABLE:

Electric / Gas driven with pressure ranging from 1500-3000 psi, and discharge of 1.7-5.5 gpm

ADVANTAGES:

- Can clean minor sewer lines, water lines, tanks, where normally manual cleaning is impossible due to inaccessibility.
- Can pay itself within months of efficient use.
- Maintenance virtually nil for first few years.
- Ease to operate as no special skill is required.
- Cleans blockages and scaling from small pipes.
- Having time and money by avoiding conventional replacement or labour oriented methods for cleaning.

NEW!!! **GASJET**® FOR 2" TO 12" PIPELINES
MODEL - IPWT/SJM-MIN/J-2900

Winner of the prestigious 'National Award for Import Substitution' in 1982 for Garbage Compactor

"High Performance Capability and High Financial Strength"
